

The Global TV Deck

The global proof of TV's power and popularity

www.theglobaltvgroup.com

Background: The Global TV Deck initiative

In 2013, *The Global TV Group* was created with major players in the TV industry joining forces to consistently back up TV's positive narrative with solid global data as well as promote the power of TV as a digitally transformed medium.

The Global TV Group launched the Global TV deck initiative to:

- Remind advertisers, journalists, tech gurus, agencies and industry peers about the power and popularity of TV
- Gather solid facts and figures worldwide to have an accessible source of reliable information
- Prove that TV and online are more powerful together

What we define as TV

TV is brand-safe

Among the most serious concerns in our industry, brand safety has been a major red flag for video advertising.

While it is important to address this issue it is also important to assess once more that TV has never and will never be faced with such a controversy.

All TV is whitelisted:

- 100% transparency
- Highest rate of viewers' trust
- Regulations
- Measurement

A great topic to illustrate TV as the safest space for advertising and highlight its strengths, effectiveness and bright future.

TV is a class apart in the video world

High completion rates

Robust measurement

Full Screen

Brand safe and pre-cleared ads

Broadcasters spent billions on high quality TV programming

The global proof of TV's power and popularity

-  **Reach**
Unbeatable scale and reach
-  **Resilience**
TV viewing is steady throughout a decade of innovation and different stages of life
-  **Popularity**
TV has by far the biggest share of attention
-  **Impact**
TV is the most trusted and impactful form of advertising
-  **Effectiveness**
Advertisers invest in TV advertising because it pays back

Reach

Unbeatable scale and reach

“TV is still really powerful for us. It is still the **most mass reaching audience** and it still works for us”

Marisa Thalberg, CMO of Taco Bell

April 2017

“More targeting is positive, but it is important not to lose sight of the **power that television has as a broadcast medium** for one message to everyone.”

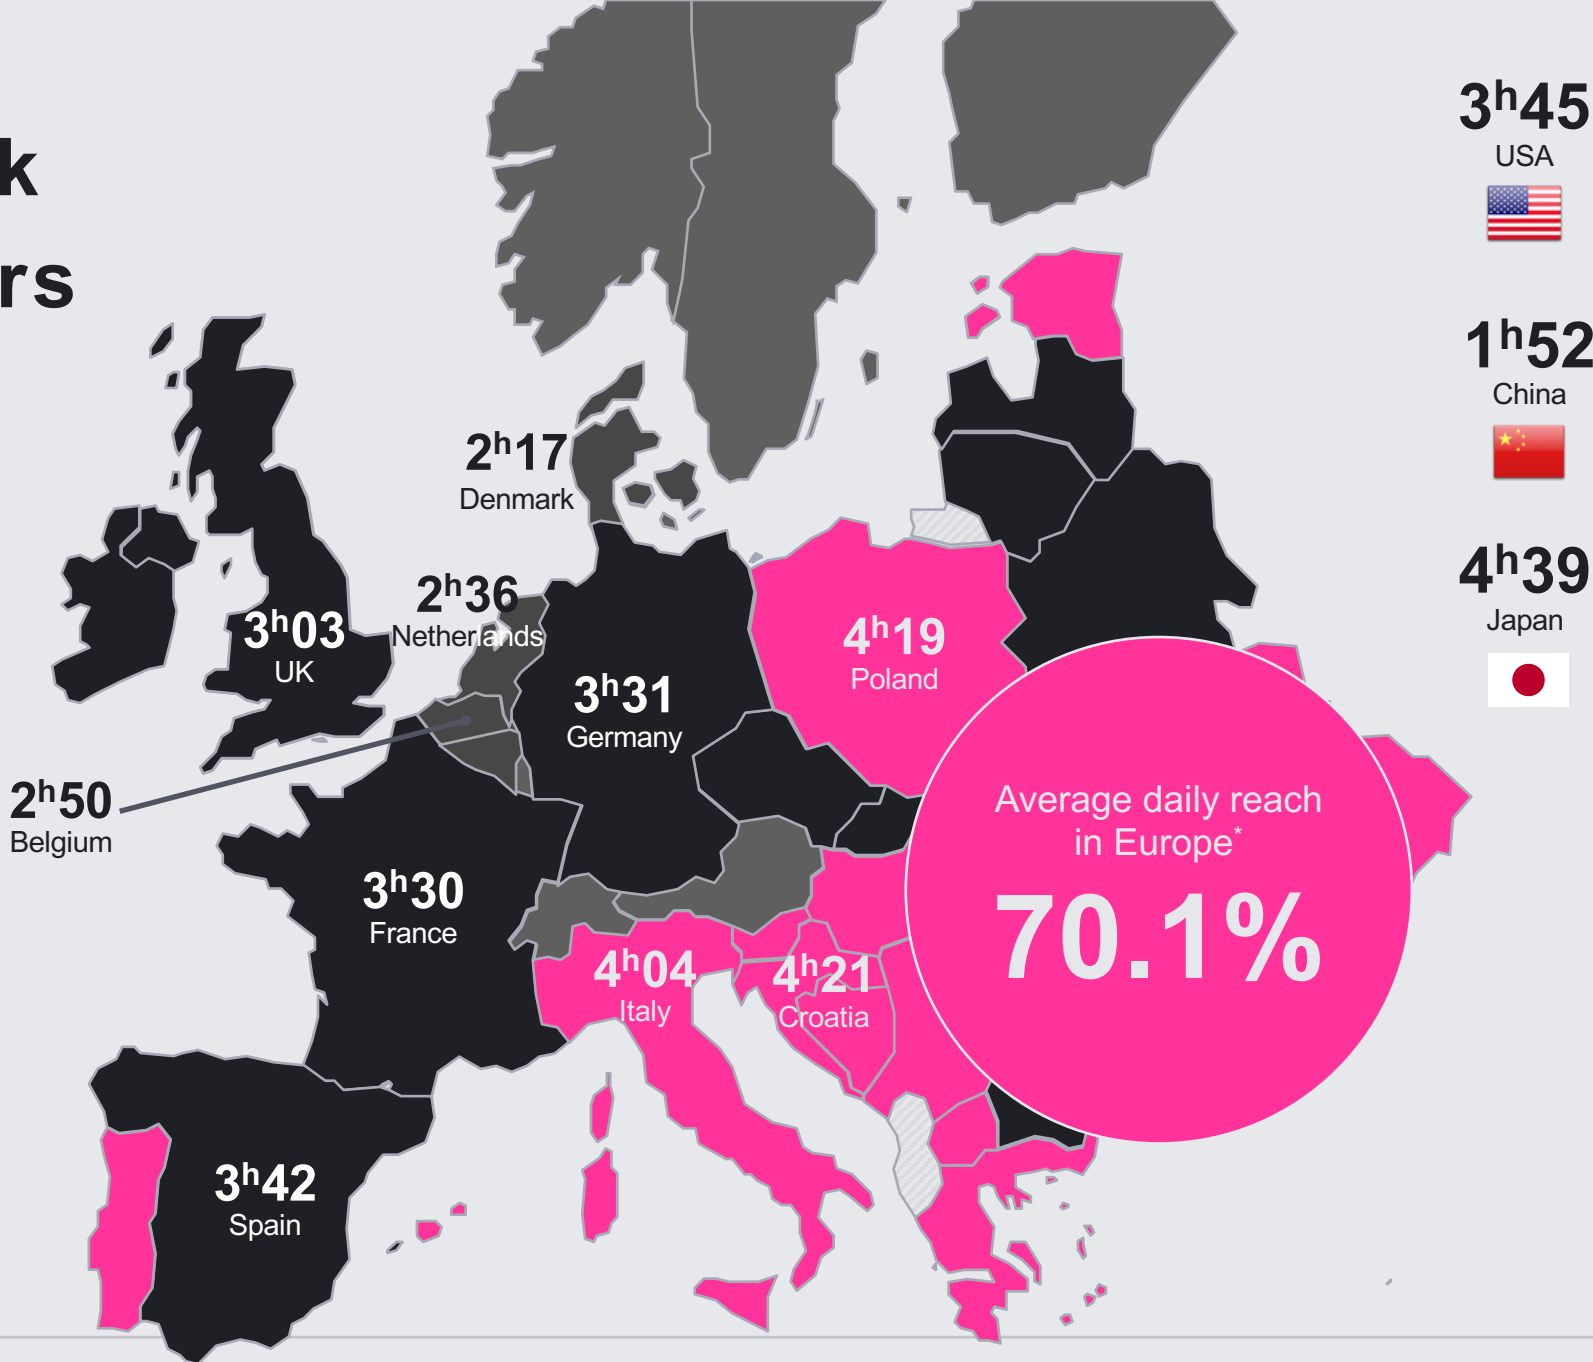

Andy Pilkington, Media Director, Europe at Adidas

Resilience

TV viewing is steady throughout a decade of innovation and different stages of life

“TV is in a naturally **strong position** as the pendulum swings back to brand building.”

Andy Pilkington, Media Director, IEurope at Adidas

December 2019

“Success depends on a fully integrated campaign... There is a time and a place for targeting through the obvious channels, digital and CRM, but there is also a **time to talk to the nation** and our TV campaigns do that brilliantly and successfully.”

Ian Hampton, Senior Campaigns Manager NHS England

October 2019

Impact

TV is the most trusted and impactful form of advertising

“Most importantly this was not a one-hit wonder, we have continued to use TV as part of our campaign mix and this uplift in results has continued – we have delivered our 2019/20 objectives after only six months, having spent just 30% of the previous year’s budget. It has helped to embed confidence in the power of TV as a credible channel for MHA across the organisation and that great results are achievable even on a low budget.”

Nick Williams, MHA Head of Marketing

November 2019

Trust in TV advertising

“Our advert has had such a **positive impact** on the Village as whole. Incredibly our village bus driver has been approached by people in towns 20 miles away having **recognised our logo from the TV ad**. This has never happened before.”

Karen Slater, Regional Director Auchlochan

November 2019

Australians trust TV advertising the most

% of adults who often get news on each platform

TV is the most trusted medium

Q: Which one of the following media carries video advertising that you believe to be most trustworthy? Least trustworthy

TV is most trusted across all demos

Q: Which one of the following media carries video advertising that you believe to be most trustworthy?

Across Europe, TV & radio are the most trusted

At EU level, traditional media enjoy the highest trust level

- Nearly half of EU citizens trust TV. Almost equal shares of citizens tend to trust and not to trust the written press.
- The Internet and social networks are the least trusted media at EU level.

Note: Survey results at EU level represent a weighted average across the 28 EU Member States, applying official population figures provided by EUROSTAT.

TV is by far the most trusted form of advertising

TV ads get the most attention

“The campaign delivered **above and beyond our expectations**, to not only successfully engage our two audiences*, but more importantly, help us surpass our **sales targets** and maintain our leading position as the #1 cheese snack format during the World Cup for both audiences.”

Celina Leroyer, Brand Manager, Mini Babybel

December 2019

TV advertising gets the most attention

Q: Which one of the following media carries video advertising that best captures your attention?

*Don't know = 4%

TV offers the most comprehensive gratification profile compared to Facebook and YouTube

TV is by far the most useful form of advertising

Q: Do you think that these kinds of advertisements are useful for you? Do they give you useful information?

We trust TV advertising the most

Q: Amongst the following, in which media do you find advertising that you trust the most ?

TV advertising gets the most attention

Young People notice TV advertising most

On which medium (TV, Social Media, YouTube) do you notice advertising most?

TV advertising gets the most attention

Effectiveness

Advertisers invest in TV advertising because it pays back

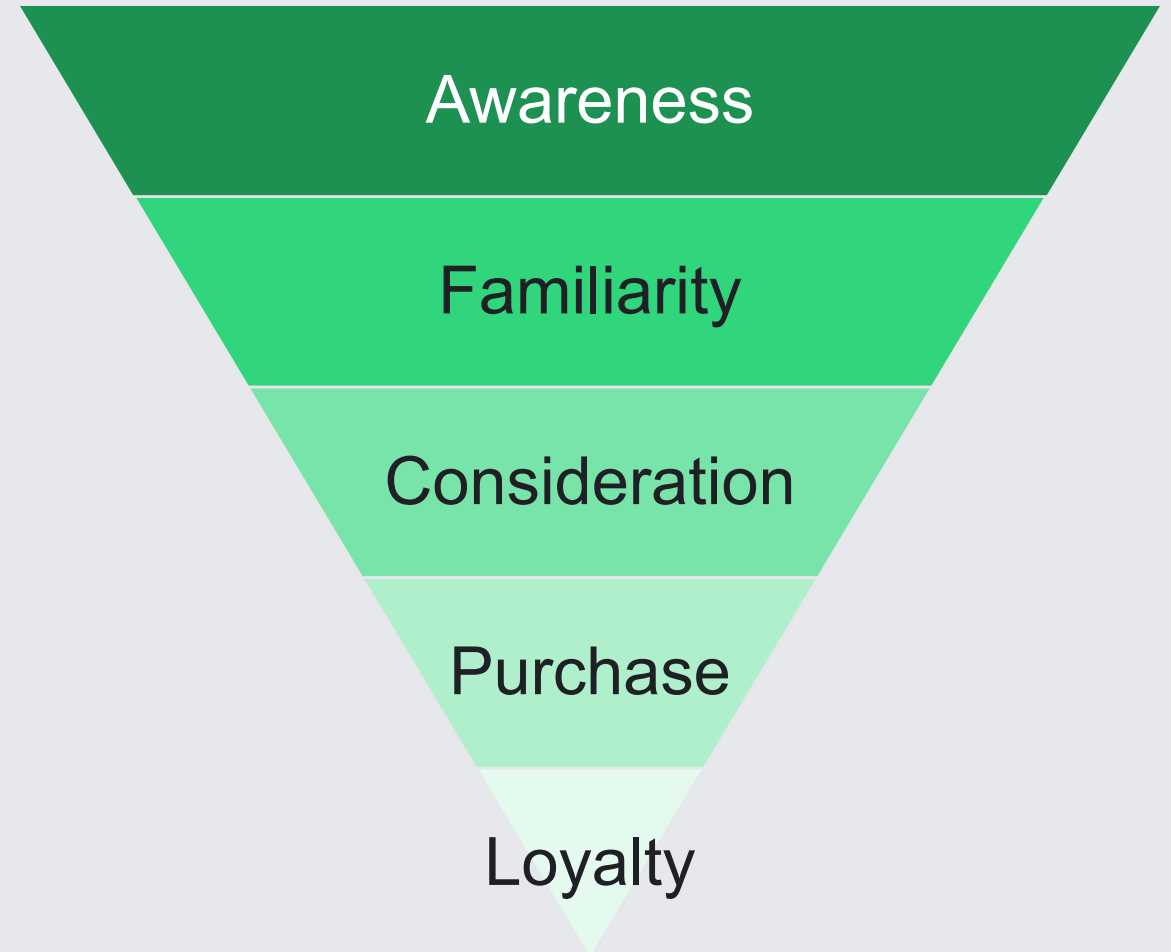

TV works throughout the funnel

TV is your best store-front window

- Top of the Funnel
- Awareness
- Brand building
- Interest / purchase intent

Bottom of the Funnel

- Activation via sales promotions messages
- TV ads drive website visits
- Thanks to digital, you can literally buy online while watching the TV commercial

“TV has been at the foundation of driving the transformation and reinvigoration of our brand. It is a mainstay of our communications strategy and plays a **fundamental role in driving awareness** of our key brand assets and the most important medium for driving long-term emotional connection with our brands.”

Sarah Koppens, UK Marketing Director, Birds Eye

April 2020

“Addressable will be a critical complement to broad-reach TV in the purchase funnel. The value is reaching consumers who are not in your target today but could be tomorrow. Or someone who is not in your target but could be a word of mouth to someone who’s in your target. So there’s a value in **reaching people outside of your target** and addressability is about just reaching that target effectively. They’ll coexist together but we don’t see a world where it’s entirely addressable.”

David Campanelli, EVP, Co-Chief Investment Officer, Horizon Media

October 2018

TV is the most efficient media channel

When indexed across advertisers drawn from 4 of the biggest sectors – FMCGs, Auto, Finance, and E Commerce. Tv is almost twice as efficient as Search – which index's 57% of Tv's efficiency.

Overall Efficiency: Media Channel ROI Indexed to TV

TV scores best in delivering campaigns that grow a business in the long term

Sum of the weighted scores of each medium on 9 attributes that matter most to advertisers

TV improves digital's performance

TV has a significant halo effect on digital media, increasing it's sales ROI by 19%

TV delivers the best ROI

Driving \$14.34 in return for every dollar spent

ATTRIBUTED SALES ROI BY MEDIA CHANNEL

TV ads are the best for brand recall

Q: What kind of advertisements is the most memorable to you?

TV is by far the most effective form of advertising

TV's R.O.I. and contribution to sales is unbeatable: 4.9 € for 1 € invested. About 2/3 (65%) of the media effectiveness can be attributed to television.

ROI

- TV* - 4,9
- Catch-up – 7,6
- Sponsorship – 4,6
- Radio* – 4,9
- Display* – 2,4
- Cinema* – 9,7
- Video online* – 3,3
- Affiliate Marketing + Display* – 3,9
- Facebook – 6,6

① Size of circles in proportion to the contribution to sales

* Contributions ≥ 5%

TV's effectiveness on the long and short term

	ROI	Carry-over effect	Long term effect*
TV	4,9	26 days	211
TV catch-up	7,6	29 days	193
TV sponsorship	4,6	22 days	195

TV drives traffic to the web

On average, there is a 61% increase in traffic to an advertiser's website (and/or mobile app) during a TV campaign.

This increase is even stronger for e-commerce advertisers (also called D2C or “pure player”).

e-commerce brands

“Click and Mortar” brands

Good to know: Brands whose website usually get low traffic (less than 25 000 per month) experience an even bigger uplift in traffic: on average +166%.

TV is one of the best media that generates the highest brand equity

Share of contribution to brand equity

With online broken down by its main formats and platforms, TV becomes the media with the highest contribution to brand metrics.

TV is the most effective medium

Effect of adding a medium to the mix - % increase in average number of very large business effects from adding TV (e.g. market share, brand loyalty, profit, sales, etc.)

Online brands love TV

Online advertisers trust TV

Despite the myth that Pure Players and online advertisers spend the majority of their advertising budget on online platforms, figures for some of the major advertisers show that they invest massively on TV.

“TV works very well for us. It’s where we are spending a **significant portion of our brand marketing** ad dollars.”

Vic Walia, Global Marketing Vice President, Expedia Group

June 2018

“Our brand is only a little over six years old and we’ve been able to build it as a **household brand** in the US very quickly over just the last few years. Without using television, I don’t think we would be where we are today.”

Niraj Shah, Co-Founder, Wayfair

May 2018

“A lot of people oftentimes don’t understand the economics of TV and how to measure it. TV can be less expensive and more beneficial than digital. It just takes more to get an initial test off the ground, but from a CPM basis, it’s comparable, if not better, in some places, especially now that people are buying for these hyper-targeted custom audiences in digital.”

David Webb, Director of Growth & Analytics, **HelloFresh**
